## *Crafting happiness in life...*

**CRAFT Product Line** is a presentation of Kitchen and Utility apparatus that combines aesthetics with economy and achieves long term excellence in terms of longevity and utilization.

The primary motive fueling the CRAFT Product Line is to assemble utility appliances that optimize accessibility while minimizing the space wastage. CRAFT Products are designed for the urban architecture, tailor made to make full use of the space available.

The salient aspect of CRAFT Product line lies in the versatility of the product. Every unit is not only customizable but also unique in providing storage solutions beyond the obvious. CRAFT Products are designed with the idea that one solution provides pathway to modify and satisfy a variety of customer needs.

The CRAFT Product Line extends from minimalist Kitchen Baskets and Racks to Multi-purpose Wardrobe options to Bathroom Utility Units. Creating Excellence through the symphony orchestrated between Design and Diligence.

## ACCESSORIES

All CRAFT Solutions are enhanced with installation accessories to ensure maximum quality performance and long term utility.

## OUR STORY

The Craft Product Line was an intention given shape. The intention to design a storage unit catalogue that not only caters to the primary needs of accessibility and utility, but also to provide the perfect amalgamation of space and design. The units were conceptualized and designed keeping in mind the economy of the space in contrast to the versatility of requirement.

As an Interior Designer, a primary reason to recommend Craft Product line is the minimalist unobtrusive aesthetic that not only provides a perfect assimilation into the Kitchen arrangements but also surpasses the contemporary storage assembly by providing a sleek design that allows the consumer the ease of access.

I was recommended to install the Craft Product Line in my Kitchen by my interior Designer. At the very first impression, what took me by surprise was how convenient the dimensions and fittings were. The installation was far smoother and quicker than any I've previously seen and yet did not take up all the space in the kitchen. I like to move around a bit in my kitchen when I cook and Craft Product Line is the perfect solution for using space economically while allowing superb accessibility to the storage.

## OUR STORY

Every Craft Product is carefully created with the dimensions providing and achieving the singularity between ease of installation and ease of use. With the urban interiors rapidly changing, it is necessary to devise ways for the storage appliances to not only grow in terms of ability but also in terms of availability. Craft Product line ensures this very notion in work by providing dimensions perfectly suited for the modern urbanity, offering customization and versatility.

The Craft Product Line is highly recommended for the urban interiors for the high artistic form of its versatility. As a Designer, Craft is the go to solution for finding the balance between achieving a utilization balance between the appearance and function. The Design in itself is incredibly fashionable with its sleek chrome edges, giving a sense of modernity, while the dimensions and structure conveys the assurance of long term quality and stability.

As a Chef, I often experiment with ingredients. And it is not an easy to manage several different dishes cooking at the same time, be it keeping a track of time or ingredients. The Craft Products allow me perfect arrangements for both. While the products installed take up very little space, the marvelous versatility of the uses and complete ease in arrangement due to the design and dimensions allows for a much more pleasurable cooking session. I can now easily remember and turn to just the ingredient I am looking for without the hassle of wasting time.
